Confections in Chocolate

Gala for Hope

Saturday, March 21, 2020
Glen Sanders Mansion

Benefitting
Epilepsy Foundation
of Northeastern New York

The Epilepsy Foundation of Northeastern New York is a non-profit organization serving individuals affected by epilepsy in 22 counties including the Capital Region, North Country, and the Upper Hudson Valley. Our mission is to lead the fight to overcome the challenges of living with epilepsy and to accelerate therapies to stop seizures, find cures, and save lives. The Epilepsy Foundation is an unwavering ally for individuals and families impacted by epilepsy and seizures. We work to prevent, control, and cure epilepsy through our wide variety of programs which are tailored to children and adults, as well as their families and caregivers. We ensure that people with seizures have the opportunity to live their lives to the fullest potential.

Our programs, including information and referral, school education, support groups, counseling, service coordination, and professional in-service training have helped thousands of individuals affected by epilepsy over the past 39 years. Proceeds from this event fund our programs and services.

The Epilepsy Foundation of Northeastern New York is pleased to announce the recipient of the 10th Annual Flame of Hope Award.

This prestigious award recognizes Pioneer Bank for their steadfast commitment to the Epilepsy Foundation of Northeastern New York over the past decade. Pioneer Bank’s generous support of our special events has helped fund programs and services to individuals affected by epilepsy, their family members, caregivers, and the community at large. These programs include information and referral, counseling, service coordination, education, professional in-service training and support groups.

In addition, we are grateful for the Pioneer Bank volunteers that have served and continue to serve on our Board of Directors and special event committees. Pioneer Bank’s dedication has helped our organization grow and thrive, while improving the quality of life for people with epilepsy.
