

AGENDA

2026 Diagnostics & Tracking Research Roundtable for Epilepsy

April 29, 2026

Meeting Objectives:

- Share updates for wearable devices publications including an AES position statement on the use of seizure detection and alerting devices and next steps for dissemination.
- Highlight recent reimbursement legislation efforts.
- Share updates on progress of coverage requests with insurance providers.
- Evaluate language that can be included in after-visit summaries to educate patients and clinicians about wearables and devices.
- Launch new working group focused on AI regulation and adaptive algorithms.
- Examine how to identify the right device for each patient.
