# ECHO Epilepsy/Neurology

Cincinnati ECHO Epilepsy/Neurology teleconferences are **free, interactive, webinar-based mentoring sessions** to help you with the many critical aspects of accessing and providing neurological care for your patients. Our consultants are **experts on epilepsy, migraine, Parkinson's disease, stroke, and Alzheimer's disease**. They offer their advice and encourage discussion on all your questions and concerns for you, your practice staff, and providers.

Project ECHO links expert specialist teams with primary care clinicians and other healthcare professionals in local communities. These healthcare providers become part of a learning community, where they receive mentoring and feedback from the team of experts. Together, they discuss patient cases so that they can provide the best care. Cincinnati ECHO, as with most other ECHOs worldwide, uses Zoom videoconferencing software to connect participants remotely from any location. **All health care professionals including physicians, nurse practitioners, physician assistants, nurses, medical assistants, social workers, community health workers, and other office staff can participate live from any internet device from any location.**

**Zoom is free to use to connect to any session.**

## Benefits:

- **FREE CME** for each session participation
- **Gain real-time access to an interdisciplinary team of Neurology and Epilepsy experts for advice on your complex patients through case-based learning**
- **Increase knowledge about evidence-based practices for caring for individuals**
- **Increase your network of like-minded providers**

## Info:

- **All you need is internet connection and a front facing camera or smart phone**

## Topics may Include:

- \* **Marijuana for epilepsy and other neurological indications**
- \* **Primary care approach to seizure diagnosis and treatment**
- \* **The role of the Epilepsy Center**
- \* **Mood disorders and anxiety in epilepsy, including self-management**
- \* **The primary care approach to treatment of migraine and severe headache.**

Upon completion of this course the participant should be able to:

1. Demonstrate greater comfort and self-efficacy when treating patients with neurological disorders.
2. Acquire and utilize a larger variety of resources when treating patients with neurological disorders.
3. Demonstrate greater knowledge and interest in improving care of patients with neurological disorders.

### Faculty Disclosure Declaration

According to the disclosure policy of the University of Cincinnati College of Medicine, all faculty, planning committee members, and other individuals who are in a position to control content are required to disclose any relevant relationships with any commercial interest related to this activity. The existence of these interests or relationships is not viewed as implying bias or decreasing the value of the presentation. All educational materials are reviewed for fair balance, scientific objectivity and levels of evidence. Disclosure will be made at the time of activity.

### Accreditation Statement

The University of Cincinnati is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The University of Cincinnati designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**\*\*ECHO Epilepsy/Neurology sessions occur the first Thursday of every month\*\***
